IMPORTANT MESSAGE FOR PRE-SCHOOL PARENTS/GUARDIANS:

The New Jersey Department of Health is fully enforcing the seasonal flu vaccine mandate for children enrolled in preschools.

There will be **NO** grace periods granted for unvaccinated children.

If your child has not received the influenza vaccine by December 31st, your child **cannot** return to school until the end of the flu season, which is March 31st in New Jersey, or until he/she receives at least one dose of the influenza vaccine.

Parents/guardians must provide documentation of the completed vaccine to the director of the pre-school.

If your child is exempt for medical reasons, a physician's note is required.

If your child is exempt for religious reasons, a note from the parent/guardian stating such an exemption is required.
